

South Suffolk Leisure offers a wide range of food and drink for purchase by our customers. The choices available offer a range of healthy options and tasty treats; this allows you to make your own choices around a healthy balanced diet and a tasty treat on being physically active.

Only food and drink purchased at this facility may be consumed on these premises.

We appreciate that weaning babies have preferred tastes and so please feel free to bring your own baby food. We regret that we cannot heat this food.

**Bottle Warming:**

We are happy to warm your babies' bottle by placing it in a sealed jug of hot water that is kept behind the counter. You are then responsible for checking the temperature before giving to your baby.

South Suffolk Leisure is committed to ensuring high standards of food hygiene. We do not offer a food heating service due to the potential for food poisoning which may arise from handling food which is not fully under our control:

If you have any recommendations on what you would like to see on our menus please use our CONTACT US page on our website [www.ssleisure.co.uk/contact-us](http://www.ssleisure.co.uk/contact-us)

This policy was written in partnership with Babergh and Mid Suffolk District Councils Environmental Health Team as part of our Safe Food Better Business Quality Management System.
