

South Suffolk Leisure's aim is to deliver a healthier, greener future for every one of us.

- To visibly demonstrate our concern for the environment to our employees, partners and customers.
- To cultivate respect for the environment by developing an awareness and understanding amongst our employees, partners/clients and the wider community of the impact that our operations have on the environment.
- To maintain a healthy working environment for all our customers, employees and the community.
- To prevent the incidence of pollution whenever possible.
- To continually improve our environmental performance.
- Work in partnership with Babergh District Councils Carbon Reduction Plan.

OUR PROMISE

- We will inspire our staff to get involved in fighting climate change and pollution both at home and at work.
- We will take action to save energy and use it more wisely.
- We will support the use of sustainable resources and encourage re-use and recycling.
- We will continually assess and monitor progress against our policies and promises.
- We will provide our staff with a welcome travel pack as part of their induction highlighting sustainable means of travel to our centres.
- We will survey our staff and users bi-annually on how they travel to our centres.
- We will recycle 50% of our waste.
- We will have a green travel plan for our centres.
- We are working to reduce our marketing print by 80% by December 2016.

This policy is available to download from our website www.ssleisure.co.uk and available in different formats on request.
